

## BELVEDERE CLUB 2019 ARCHITECTURAL INVENTORY

**Site:** 15

**Historic Name** N/A

**Year Built** c. 1900

**Architectural Style** Stick style

The vertical board and batten siding, sunburst decoration in the gables, and angled brackets along with the steeply pitched cross gable roof are all indicative of the Stick style. The two-story cottage appears to retain most of its original form and features with the exception of the extension of the second floor gable front out to the edge of the shed porch roof, and placing two windows in the gable front instead of the original one window. Dormers have been added to the side of the front gable extension.

### **Significant Features**

- Vertical board and batten siding.
- Porch posts with angled brackets.
- Vergeboards in gables.

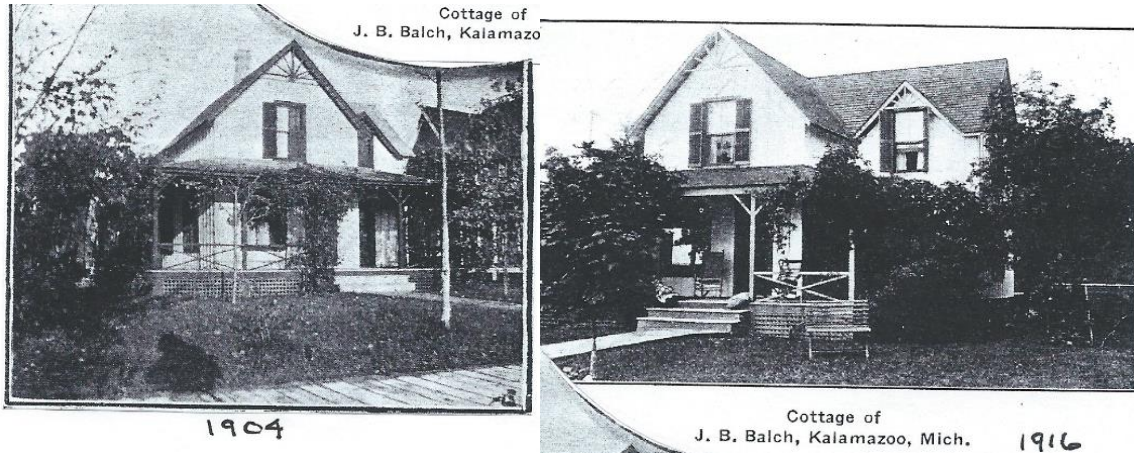

### **Condition**

The cottage is in good repair no issues are apparent.
